

Animated lessons with TI-Interactive

Renée Gossez

Notice about the TI-Interactive files

The folder ***Horse and cheetah*** contains three files.

Animation corresponds to the first and second steps (pages 2 and 3 of the text)

Graphical solution is relative to the third step (pages 3 and 4)

Graph parh corresponds to the fourth step (pages 4 and 5)

The folder ***Bird*** contains the four files appearing in pages 5 to 7 of the text :

Main task, Notebook, Help, Hint.

To avoid problems, the hyperlinks between the files were deleted. The best procedure is to open each of the files in a separate TI-Interactive session and then to switch from one file to another by clicking on its icon in the status bar.
