bk teachware Series "Support in Learning"

**Exam Questions
and Basic Skills
in
Technology-Supported
Mathematics Teaching**

**Proceedings
of the
6th ACDCA Summer Academy
in Portorož, 2-5 July 2000**

**V Kokol-Voljč, B Kutzler,
M Lokar, J Palčič (eds.)**

**bk teachware Series "Support in Learning" no. SL-15
ISBN 3-901769-33-1**

Conference Organizing Committee:

Conference Organizers and Co-chairs:

Vlasta Kokol-Voljč, University of Maribor, Faculty of Education, Slovenia

Bernhard Kutzler, ACDCA, Austria

Conference Secretary:

Julijana Palčič, Gimnazija J. Plečnika, Ljubljana, Slovenia

Technical Coordinator:

Matija Lokar, University of Ljubljana, FMF, Slovenia

The conference was sponsored by:

- Ministry of Education and Sport, Republic of Slovenia
- Texas Instruments Austria

These proceedings were sponsored by:

- Ministry of Education and Sport, Republic of Slovenia

Conference Program Committee:

Vlasta Kokol-Voljč, University of Maribor, Slovenia

Bernhard Kutzler, ACDCA, Austria

Josef Böhm, Derive User Group, Austria

Roger Brown, International Baccalaureate Organisation, UK

Wilfried Herget, University of Halle, Germany

Edward D. Laughbaum, The Ohio State University, OH, USA

Matija Lokar, University of Ljubljana, Slovenia

Dušan Pagon, University of Maribor, Slovenia

Edith Schneider, University of Klagenfurt, Austria

Ibrahim Wazir, American International School - Vienna, Austria

TABLE OF CONTENTS

V. Kokol-Voljč

Instead of an Introduction	7
----------------------------------	---

KEYNOTE PRESENTATIONS

W. Herget, H. Heugl, B. Kutzler, E. Lehmann

Indispensable Manual Calculation Skills in a CAS-Environment	13
--	----

H. Heugl

New Emphasis of Fundamental Algebraic Competence and its Influence in Exam Situation	27
---	----

E. Laughbaum

Using Data Collection to Promote Mathematical Understanding.....	39
--	----

W. Peschek, E. Schneider

How to Identify Basic Knowledge and Basic Skills in CAS-Supported Mathematics Education?	47
---	----

CONTRIBUTED PRESENTATIONS

B. Aspetsberger, K. Aspetsberger

Experiences with CBL and the TI-92 in Austrian High School Classes Integrating Math, Physics and Chemistry	57
---	----

A. Balderas Puga

Exams in the Perspective of an Intensive Use of Software in Regular Courses.....	61
---	----

M. Bon-Klajnšček, S. Šenveter

The Role of Technology in Improvement of Testing	65
--	----

A. Cvetkovič, D. Ivanec, K. Starin, T. Špegel-Razbornik

Quadratic Function - Exam Questions with Use of CAS	69
---	----

J.-J. Dahan

An Other Approach of Teaching Mathematics with New Technologies	73
---	----

Y. Ersoy, N. Sirinoglu

A Group of Students' Response and Performance in Learning Linear Functions and Graphs	77
--	----

R. Fazio

The Mathematics Final Exam Questions for the Italian Experimental Scientific Liceo Discussed and Solved With Derive 5	81
---	----

T. Hodnik

Calculator Modulated Arithmetic in Elementary School	85
--	----

D. Jeswani

The Natural Calculator	89
------------------------------	----

N. Jurkovic

Symbolic Problem Generation in a CAS	93
--	----

D. Kadijević

Can Procedural and Conceptual Mathematical Knowledge Be Linked Through Computer Assisted Learning?	97
--	----

G. Keller

CAS at Vocational Schools in Baden-Wuerttemberg	101
---	-----

J. Klasa, S. Klasa

Linear Algebra with Maple	105
---------------------------------	-----

V. Kokol-Voljč

Content of Technology-Supported Exams	109
---	-----

T. Kolokolnikov, S. Klai, N. Van Den Bergh

Using Maple and the Web to Administer Mathematics Tests	113
---	-----

M. Kronfellner

Historical Curves and New Technology	117
--	-----

B. Kutzler

Two-Tier Exams as a Way to Let Technology In	121
--	-----

G. Locke-Scobie, M. Torres-Skoumal

An Introduction to Differential Calculus Using Mathematica	125
--	-----

M. Lokar

Some Questions about Technology and Teaching	129
--	-----

M. Lokar, M. Lokar

Slovene Final External Examination - Matura in the View of CAS	133
--	-----

J. Maasz

Learning Mathematics with an Austrian CD-ROM "Mathe Tutor Oberstufe 2.0" ...	137
--	-----

E. Mac Aogáin

Assessment in the CAS Age: An Irish Perspective	141
---	-----

M. McCabe, B. Daugherty

An Integrated System for Web-Based Assessment in Mathematics 145

D. Pagon

Arithmetic Operations with Polynomials on TI-92 149

F. L. Pelayo, J. J. Miralles, M. Mar Artigao, J. C. Valverde

From the Euclidean Tool to the CAS 153

I. Schirmer-Saneff, A. Thal

New Three-Tier Model of Assessment in CAS Classes 157

E. SchneiderPotentials and Effects of 'Representing' in CAS-Supported
Mathematics Teaching 161**M. Šifrar**

Benefits of Creating and Solving Tests with Scientific Notebook 165

M. Torres-Skoumal

Alternative Assessment Model 169

O. WurnigWays of Assessment in CAS-Oriented Mathematical Education -
New Experiences, First Results 173**A. Žakelj**The Use of Calculators and Personal Computers in
Secondary and High Schools 177
